

# **DSDT DRUGS AND ALCOHOL POLICY**

DSDT provides a drug-free environment for its faculty, staff and students. The unlawful possession, use, distribution, dispensation, sale, or manufacture of drugs or alcohol is prohibited on DSDT campuses premises, and at any DSDT school activities. No employee or student is to report or return to work or any company activity while under the influence of drugs or alcohol. For purposes of this policy, a conviction includes a plea of guilty or of nolo contendere.

## **TESTING POLICY & PROCEDURES**

Drug and Alcohol testing may be conducted on a random basis; if DSDT believes that an employee or student has been observed possessing or using a prohibited substance on the job; when DSDT reasonably believes that any employee or student may be affected by the use of drugs or alcohol and that they use may adversely affect performance or the environment, or when DSDT reasonably believes that an employee or student is impaired during working or school hours or while engaged in school business, or a school sponsored activity; and any employee or student who has had a positive drug or alcohol impairment test may be subjected to periodic, random testing, for a period of one year from a positive Drug or Alcohol impairment test.

### **The following testing methods and procedures will be followed:**

- Testing will ordinarily be conducted during, immediately before or immediately after regularly scheduled work or school hours. For current employees, time spent in testing and in traveling to and from the regular work site to the place of testing, is work time.
- Whenever a Drug or Alcohol impairment test is done at the request of DSDT pursuant to this policy, the school will pay the actual costs of the testing. In addition, when testing is done at locations over than the school facility, the school will pay reasonable transportation costs for the travel to and from the site to the testing location.

### **Testing shall be conducted under the following conditions:**

- Sample collection shall be performed under reasonable and sanitary conditions;
- Sample collections shall be labeled in such a way as to reasonably preclude the possibility of misidentification of test results;
- Prior to testing, the individual shall be provided with an opportunity to notify DSDT of any information relevant to the test;
- Sample collection, storage, and transportation, where necessary shall be performed in a manner reasonably designed to preclude the possibility of sample contamination adulteration, or misidentification.
- Sample testing will be done in such a way as to comply with scientifically accepted analytical methods and procedure, and by a laboratory approved or certified by, at least, one of the following: United states Department of Health and Human Services, College of American Pathologist or a state department of health and human services.
- Upon the written request of the individual, a positive Drug test result shall be confirmed by a subsequent test, using a different chemical process than used in the initial drug screen. A chromatographic technique or another comparably reliable analytic method will be conducted confirming results.

### **Employee and Student Testing Rights**

- Employees and students have the right, upon written request, to obtain a copy of the written test results.
- DSDT will not release information relating to testing, including test results, to any third parties except upon written authorization of the employee or student, or when legally compelled to do so.

### **Refusal of Testing**

Refusal to participate in Drug or Alcohol impairment testing when requested to do so, or refusal to accept the terms and conditions of testing as specified in this policy, may result in disciplinary action, up to and including termination from DSDT. If applicable, prospective employees or students who refuse to undergo Drug or Alcohol impairment testing are not eligible for hire or admission (respectively).

*Please direct any questions, concerns, or reports regarding this policy to the School Director.*

### **DSDT's Policy on Consumption of Alcoholic Beverages on Campus**

The use or possession of alcoholic beverages is expressly prohibited in classrooms, lecture halls, laboratories, the libraries, and within buildings or arenas where events, lectures, and meetings are held. The use of alcoholic beverages is expressly prohibited in all public areas of campus buildings. For employees only, social activities held off-premises and paid for on a personal basis are generally not affected by this policy. If management considers it appropriate and approves of such use in writing, alcoholic beverages may be served at company-sponsored events held off-premises and for purely social reasons.

### **Texas State Alcohol Laws**

Under Texas law, it is illegal for anyone under the age of 21 to purchase, consume, possess or have any bodily content of alcohol. The following summarizes some of the potential legal consequences for violating state law:

A first-time conviction may result in a fine, substance abuse education and treatment, community service and court-ordered drug screenings.

There also is a provision for possible imprisonment or probation for a second or subsequent offense.

The use of false identification by minors in obtaining alcohol is punishable with a fine, loss of driver's license, probation and community service.

### **Consumption and Possession of Marijuana**

DSDT is in compliance with the federal Drug-Free Schools and Communities Act of 1989. Federal and Texas law prohibits the manufacture, sale, delivery, possession, or use of a controlled substance without legal authorization. A controlled substance includes any drug, substance, or immediate precursor covered under the Texas Controlled Substances Act, including but not limited to, opiates, barbiturates, amphetamines, marijuana, and hallucinogens. The possession of drug paraphernalia is also prohibited under Texas State law. Drug paraphernalia

includes all equipment, products, and material of any kind that are used to facilitate, or intended or designed to facilitate, violations of the Texas Controlled Substances Act. Alleged violations of this law may result in criminal charges and will also be adjudicated through the appropriate University disciplinary process.

### **FEDERAL PENALTIES FOR SCHEDULE I, II, III, IV, AND V DRUGS**

Production of these drugs is controlled. Examples include GHB, heroin, methaqualone, all hallucinogens (except PCP, marijuana and hashish), and THC, which can also be a Schedule II drug, depending on its form. Schedule II drugs have a high potential for abuse but have some medical uses. Production of these drugs is controlled. Examples include opium, morphine, codeine, other narcotics, barbiturates, cocaine, amphetamines, PCP, and OxyContin. Federal criminal penalties for selling Schedule I and II drugs vary with the quantity of the drug and whether the individual has the drug for personal use or for sale. Criminal penalties are more severe if sale or use of the drug results in death, if drug use is tied to sexual assault, or for repeat offenses. Federal penalties for Schedule I, II, III, IV and V (except marijuana) are set forth in the attached Schedule A.

Federal penalties for marijuana, hashish, hashish oil, and Schedule I substances are set forth in the attached Schedule B. Schedule III, IV and V drugs include those most citizens would categorize as “prescription drugs.” Schedule III drugs have some potential for abuse but less than those on Schedules I and II. The potential for abuse of Schedule IV drugs is less than those on Schedule III, and the potential for abuse of Schedule V drugs is less than those on Schedule IV. All Schedule III to V drugs have medical uses and their production is not controlled. Examples of these drugs include some narcotics, barbiturates, depressants, amphetamines, and other stimulants. Penalties for sale of these drugs depend on whether it is a first offense or repeated offense (see Schedule A).
